Integrating Clinical and Translational Research Networks—Building Team Medicine—Series 3

Message from the Guest Editors

Buoyed by the enthusiastic response from our peers and colleagues, we have embarked on establishing Volume 3. The basic theme is the same, namely integrating academic medical centers with community hospitals to ensure that all patients regardless of their physical proximity to major medical institutions can benefit from recent clinical advances. However, in Volume 3, we have ventured to include our colleagues internationally. Our aim here is to highlight translational research approaches that leverage the combined knowledge, skills, experience, expertise, and vision of clinicians in academic medical centers and their affiliated community centers and hospitals, together with those of basic research scientists, computational scientists, bioinformaticians and data scientists. We look forward to sharing our Team Medicine experience with our colleagues and trust that they will find the approach described in the articles embodied in this Special Issue helpful in guiding their approach to treating cancer patients.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2024).
