Advances in the Diagnosis and Treatment of Fundus Diseases

Message from the Guest Editor

Fundus diseases mainly include lesions of the retina, optic nerve, vitreum, etc., and can lead to irreversible visual impairment without timely diagnosis and appropriate treatment. Their early detection and diagnosis can reduce the incidence of severe vision loss and improve the efficiency of treatment. Fundus imaging, a noninvasive diagnosis method, was an initial and widely used model for analyzing fundus diseases; at present, fundus imaging techniques are developing in a world field, microview, multimodal, quantitative, and intelligent way. The goal of this Special Issue of *JCM* is to provide a platform to present the current trends in pathophysiology, clinical presentation and imaging, differential diagnosis, and treatment regarding fundus diseases.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
