Special Issue

Clinical Advances in Pulmonary Heart Disease

Message from the Guest Editors

Pulmonary hypertension (PH) is haemodynamically defined as a mean pulmonary artery pressure > 20 mmHg and is classified into five distinct groups, taking into account the underlying condition, clinical and haemodynamic features PH can be attributed to a wide spectrum of underlying conditions, such as left heart disease, lung disease, pulmonary artery obstruction, but it can also be associated with drugs and toxins, connective tissue disease (CTD-PAH), HIV infection, portal hypertension (portal-PAH), congenital heart disease (CHD-PAH) and schistosomiasis or it can be idiopathic (IPAH) or heritable (HPAH). In this Special Issue, we would like to invite original clinical and basic research, meta-analyses, and state-of-the-art reviews related to clinical advances in the whole spectrum of PH and pulmonary heart disease in general. We will be grateful to receive your submissions to move the field of PH forward. Keywords:

- pulmonary heart disease
- pulmonary hypertension
- diagnosis
- treatment
- clinical advances

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine*'s (*JCM*) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès Internal Medicine Department, University Hospital Strasbourg, 67000 Strasbourg, France

Prof. Dr. Kent Doi Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
