Minimally Invasive Image Guided Interventions

Message from the Guest Editor

In the past decade, significant strides have been made in the development of image-guided interventions, pushing interventional radiology (IR) to the forefront of medicine. Conventional diagnostic imaging technologies such as ultrasound, CT, fluoroscopy, and MRI are evolving to have new applications that can better assist clinicians in the surgical suite. These advancements in image-guided interventions have led to increased success in practices such as the ablation of tumors; the treatment of joint pain, hemorrhoids, venous thrombosis, aneurysms, and arterial stenosis; among other things. This Special Issue aims to summarize the practical uses of established image-guided interventions and provide readers with a deeper understanding of emerging technologies in IR. Authors are welcome to submit original research and review papers.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
