

Special Issue

Multidisciplinarity in Thoraco-Pulmonary Diseases: Every Generation Needs a New Revolution. Insights from the XXII SIET National Meeting

Message from the Guest Editors

The Italian Society of Thoracic Endoscopy (SIET) was established in 1980 to support research and innovation in endoscopic thoracic surgery by promoting their development and application in the national and international context. Moreover, the SIET promotes the training of young people through courses in collaboration with universities and scientific societies. The SIET national meeting is a means of information and training exchange, intending to create a cohesive and active scientific community. It is held every two years, welcoming specialists from different disciplines. This year, the multidisciplinary spirit of the SIET will be decisively demonstrated, with participants equally divided between surgical and pulmonological specialties, reflecting in the scientific sphere what happens every day in clinical practice. These topics will be addressed by international experts presenting their personal experiences. The current Special Issue aims to promote the most interesting abstracts presented during the meeting by developing them into full articles. Following the purpose of this collection, manuscripts should address innovations in this specific field of interest.

Guest Editors

Dr. Federico Raveglia

Dr. Carmelina C. Zirafa

Prof. Dr. Mohsen Ibrahim

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
