

Special Issue

The Prevention, Treatment, and Complications of Diabetes Mellitus

Message from the Guest Editor

We invite you to participate in this Special Issue of JCM on “Prevention, Treatment, and Complications of Diabetes Mellitus”. As you well know, diabetes mellitus (DM) is a major health problem and, due to complications, is one of the leading causes of blindness, kidney failure, and lower limb amputation. Furthermore, DM notably increases the risk of developing cardiovascular disease and reduces the quality of life. Regarding treatment, that for type 1 DM continues to be based on insulin therapy with multiple injections or on the implantation of continuous insulin infusion systems, and for both, the application of sensors that continuously determine glucose levels represents a remarkable advance for metabolic control. On the other hand, the treatment of type 2 DM has become more complex, with multiple proposals oriented toward individualization depending on the characteristics of the patient (age, comorbidities, weight, empowerment, and cost). We look forward to receiving your submissions to this Special Issue.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
