

## Special Issue

# Temporomandibular Joint Disorders Update: Etiology, Diagnosis and Treatment

### Message from the Guest Editors

In the field of clinical dentistry, temporomandibular disorders (TMDs) represent, apart from dental caries and periodontitis, a major challenge. TMDs have been characterized as joint sound, joint and/or masticatory muscle pain, and limited mouth opening affecting around 20% to 25% of the population worldwide, and one-fifth of those with TMD-related pain and dysfunction require treatment. TMDs have complex and sometimes controversial etiologies. Except for surgical modalities, no effective treatment remedies for TMDs have been developed yet. Thus, appreciating the pathophysiology of the TMJ degenerative disorders is important to understanding the etiology, diagnosis, and treatment of TMDs. This Issue provides a comprehensive update on the etiology, diagnosis, and treatment for TMDs. Then, the aim of this Issue is to develop safe and secure diagnostic systems and treatment remedies for TMDs based on their etiology. It is our pleasure to invite you to submit a manuscript for this Special Issue. Full papers, communications, and reviews are all welcome.

### Guest Editors

Prof. Dr. Eiji Tanaka

Department of Orthodontics and Dentofacial Orthopedics, Tokushima University Graduate School of Biomedical Sciences, Tokushima 770-8504, Japan

Prof. Kotaro Tanimoto

Department of Orthodontics and Craniofacial Developmental Biology, Hiroshima University Graduate School of Biomedical Sciences, Hiroshima, Japan

### Deadline for manuscript submissions

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
