

## Special Issue

# Stroke Diagnosis and Outcome Prediction

### Message from the Guest Editor

Stroke remains a significant global health concern, posing substantial challenges to healthcare systems worldwide. For the purpose of advancing our understanding and improving patient outcomes, we are pleased to announce a Special Issue dedicated to "Stroke Diagnosis and Outcome Prediction". This initiative aims to bring together cutting-edge research and innovative contributions that address the multifaceted aspects of stroke management. This Special Issue will encompass a broad spectrum of topics related to stroke diagnosis and outcome prediction, including but not limited to biomarkers and predictive models, technological innovations, clinical interventions and rehabilitation, and patient-centered approaches. Join us in this collaborative effort to deepen our understanding of stroke, enhance diagnostic capabilities, and ultimately improve the quality of life of individuals affected by this challenging medical condition.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
