

Special Issue

Recent Advances in Thyroid Surgery

Message from the Guest Editor

Thyroid diseases are the most common endocrine disorders. Thyroid surgery is performed with great frequency worldwide. The aim of this Special Issue is to update knowledge on the pathogenesis and clinical management of thyroid diseases, benign or malignant, with particular reference to the most recent technological innovations that, especially in recent years, have significantly improved outcomes. We welcome scientists with expertise in the subject to contribute relevant articles to this issue. We welcome clinical, experimental, and review studies that improve knowledge in the field of thyroid diseases, providing our readers with an up-to-date overview on this topic.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
