

## Topical Collection

# Machine Learning and Data Analytics for Cyber Security

### Message from the Collection Editors

In this Special Issue, we invite papers that address the topics of machine learning and data analytics, and their applications to addressing challenges in cyber security. The possible topics may include, but are not limited to:

- Network traffic analysis;
- Malware analysis;
- Behavioural analysis;
- Social media analysis;
- Wireless sensor security;
- Mobile and web application security;
- Machine learning for system security;
- The security of machine learning;
- Adversarial machine learning;
- The security of the Industrial IoT;
- The security of connected autonomous vehicles;
- The security of HealthTech;
- Machine learning for cybercrime;
- Data visualisation for cyber security;
- Analysis techniques for cyber security

---

### Collection Editors

Prof. Dr. Phil Legg

Computer Science Research Centre, University of the West of England,  
Bristol BS16 1QY, UK

Prof. Dr. Giorgio Giacinto

Department of Electrical and Electronic Engineering, University of  
Cagliari, Piazza d'Armi, 09123 Cagliari, Italy

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Danda B. Rawat

Department of Electrical Engineering and Computer Science, Howard  
University, Washington, DC 20059, USA

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, EBSCO, and other databases.

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 32.4 days after submission; acceptance to publication is undertaken in 4.6 days (median values for papers published in this journal in the first half of 2024).

##### Journal Rank:

CiteScore - Q1 (Computer Science (miscellaneous))
