

Special Issue

From Waste to Advance Composite Materials

Message from the Guest Editor

Waste is a biggest issue in today's society and there is a huge need for changing the concept of waste and transforming the waste as resources. This can not be happen without using innovative solutions and advance processes which can transform waste to high quality products. This Special Issue aims to present the latest research related to using waste materials as input to produce high quality composite materials. Advanced techniques for controlling the properties of these composite materials, innovative solutions for tarsforming waste to resources and great improvement of current practices to incorporate more waste into the process will change the concept of waste and resources.

Guest Editor

Dr. Farshid Pahlevani

Centre for Sustainable Materials Research & Technology, School of Materials Science and Engineering, UNSW Sydney, Sydney, Australia

Deadline for manuscript submissions

closed (31 December 2022)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Dr. Francesco Tornabene
Department of Innovation Engineering, University of Salento, 73100
Lecce, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Materials Science, Composites) / CiteScore - Q1 (Engineering (miscellaneous))
