

## Special Issue

# Sustainable Utilization of Marine Renewable Energy

### Message from the Guest Editors

This Special Issue aims to showcase the latest research achievements, findings, and ideas in the renewable and sustainable utilization of marine renewable energy.

Researchers are invited to contribute original research articles, as well as review articles that summarize the latest developments and ideas in these technologies.

Potential topics include, but are not limited to:

Possibilities of marine renewable energy development; Renewable marine energy sources, institutional factors, and sustainable development; Marine renewable energy and energy demand of the residents; Energy conversion; Energy security; Pro-ecological marine technologies.

---

## About the Journal

### Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering (JMSE, ISSN 2077-1312)* is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

---

### Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

Oceans Graduate School and The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

---

### Author Benefits

#### High Visibility:

indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Engineering, Marine) / CiteScore - Q2 (Civil and Structural Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2024).
