

Special Issue

Advances in Marine Micropaleontology

Message from the Guest Editors

Dear colleagues, The Special Issue, “Advances in Marine Micropaleontology”, calls innovative scientific papers focusing on the application of marine microfossils, such as for paleoecological, paleoclimatic and paleoenvironmental reconstructions, for the correlations of sedimentary successions, for the temporal scanning of large-scale geological events, without neglecting taxonomic and systematic aspects, and for all fields in which marine microfossils can help to solve geological and environmental problems, both in applied and basic research. This Special Issue also encourages the use of new technologies and their application to modern issues such as climate change, global warming, pollution, and biodiversity. New proposed methodologies and protocols concerning the use of marine microfossils are also welcome. The Special Issue strongly encourages the publication of work from young researchers, from different geographical areas.

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering (JMSE, ISSN 2077-1312)* is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

Oceans Graduate School and The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Marine) / CiteScore - Q2 (Civil and Structural Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2024).
