

Special Issue

Selected Papers from the 8th PRIMaRE Conference 2021

Message from the Guest Editors

For the marine renewable energy sector to achieve its commercialization targets and become successful in its development, enhanced collaboration between members of the sector is required, particularly between research institutions. This provides the motivation for the Partnership for Research in Marine Renewable Energy (PRIMaRE): a consortium of marine renewable energy experts across higher education, research, and industry who have joined together to establish a 'network of excellence' centered in the southwest of the UK. As part of their strategy, PRIMaRE holds an annual conference series that provides a forum for presenting and discussing the latest research and development in all areas relating to marine renewable energy to a diverse community including industrial developers, university researchers, marine environmentalists, and policymakers. This Special Issue will publish the most exciting research from the 8th PRIMaRE conference, to provide a rapid turn-around time regarding reviewing and publishing, and disseminate the articles freely for research, teaching, and reference purposes.

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering (JMSE, ISSN 2077-1312)* is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

Oceans Graduate School and The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Marine) / CiteScore - Q2 (Civil and Structural Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2024).
