Epidemiology of Invasive Mycosis in the Hospital

Message from the Guest Editor

Fungal pathogens and infections are increasing all over the world and emerging as a global public health concern. Patients who develop invasive fungal infections generally have host defense impairment due to different reasons, including underlying health problems or a weakened immune system due to chronic lung disease, prior tuberculosis (TB), HIV, cancer, diabetes mellitus, or being critically ill in an intensive care unit; however, the at-risk population continues to grow due to many factors, including advancements in modern medicine and accessibility to therapies as well as interventions that impair the immune system, such as chemotherapy and immunotherapy for cancer, in addition to solid organ transplantation. In this Special Issue, we will collect research on the actual global scenario of the epidemiology of invasive fungal disease related to different at-risk populations or related to specific local outbreaks in the hospital.

Guest Editor

Dr. Giuliana Lo Cascio

About the Journal

Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. David S. Perlin

Hackensack Meridian Health Center for Discovery and Innovation, 111
Ideation Way, Nutley, NJ 07110, USA

Author Benefits

Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Mycology) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
