Special Issue

Diagnosis and Treatment of Endocrine Disorders

Message from the Guest Editors

Hormones play a fundamental role in the homeostasis of all organs and tissues. Therefore, endocrine dysfunction, both as an excess and defect, has a considerable impact on human health, particularly on the heart, bone tissue, skin, central and peripheral nervous systems, kidney and adipose tissue. However, the diagnosis of endocrine disorders is not always easy, and misdiagnoses can often occur due to multiple bias. Moreover, the treatment of endocrine disorders is also constantly evolving in search of the best therapeutic strategy for the same diseases. In this Special Issue, original studies on all new aspects for the diagnosis and treatment of endocrine disorders are welcome, particularly relating to thyroid disease, osteoporosis, thyroid eye disease, thyroid cancer or adrenal diseases.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. JPM publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). JPM is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. David Alan Rizzieri

- 1. Novant Health Cancer Institute, Winston-Salem, NC 27103, USA
- 2. Division of Hematologic Malignancies and Cellular Therapy, Duke University, Durham, NC 27710, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC. Embase, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.7 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).
