Special Issue

Diagnostic Imaging and Minimally Invasive Treatment of Degenerative Spine Disease

Message from the Guest Editors

Diagnostic imaging in spine disease is of paramount importance today, and it includes an understanding of the pathology, its gravity, and influence on life, as well as the psychosocial background. Hence, appropriate management plan is crucial in diagnostic imaging. Moreover, the constant technological developments have kept providing new updates to diagnostic imaging, with improved imaging visualization and more detailed images allowing a more sophisticated diagnosis and. ultimately, the best therapeutic strategy for the patient. Spinal surgery sees the benefits of this tremendous technological innovation both in diagnosis and intraoperative imaging and/or navigation tools. The goal of this Special Issue of the *Journal of Personalized Medicine*, "Diagnostic Imaging of Spine Disease", is to publish new and interesting studies, particularly original research with a clinical focus.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. JPM publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). JPM is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. David Alan Rizzieri

- 1. Novant Health Cancer Institute, Winston-Salem, NC 27103, USA
- 2. Division of Hematologic Malignancies and Cellular Therapy, Duke University, Durham, NC 27710, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC. Embase, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.7 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).
