

## Special Issue

# Novel Diagnostics and Therapies for Infectious Disease

### Message from the Guest Editors

This Special Issue aims to bridge the gap between traditional methods and the latest innovations in diagnosing and treating infectious diseases, emphasizing the critical need for more effective and precise strategies in the current global health landscape. Reflecting on the evolution of infectious disease management, this issue acknowledges past methodologies, while highlighting the importance of integrating new research and technology to combat emerging and re-emerging infections. Our objective is to showcase research that pushes the boundaries of knowledge in infectious disease diagnostics and therapy, including, but not limited to, novel methodologies, technological advancements and comprehensive treatment strategies. We are looking for original research articles and review papers that contribute significantly to the fields of infectious diseases, particularly those that address challenges in diagnosing and treating complex infections, enhancing infection control and improving patient outcomes.

## About the Journal

### Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM)*, ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

### Author Benefits

#### High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

#### Journal Rank:

CiteScore - Q2 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2024).
