

## Special Issue

# Health Economics and Insurance

### Message from the Guest Editor

Healthcare is one of the largest and fastest-growing sectors in many economies, and the quality and availability of health services has an outsized impact on quality of life. Healthcare financing and delivery arrangements vary greatly across countries, providing opportunities for researchers to study the strengths and weaknesses of various health systems and for policymakers to learn from these comparisons. This Special Issue will cover a variety of topics related to the economics of healthcare and health insurance. Of particular interest are empirical articles evaluating the effect of changes in health policy and regulations, articles on the determinants of healthcare spending or quality, articles developing value-added measures of healthcare quality, and articles studying innovations in managing the financial risks of unexpected health shocks.

## About the Journal

### Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.
