

Special Issue

Land Development and Investment

Message from the Guest Editors

Land development and investment lie at the core of contemporary challenges and opportunities, significantly impacting sustainable development, economic growth, and environmental preservation. This Special Issue will welcome manuscripts that link the following themes:

- Land market analyses;
- Land financing and urban development;
- Land investment performance measures;
- Land governance, policies, and regulations;
- Technological innovation in land development and investment;
- Managing in the land development process;
- Risk management in land development and investment;
- Economic, social, or environmental impact of land development and investment.

We encourage various types of submissions, such as empirical research, theoretical analyses, case studies, and review articles, to consolidate existing knowledge and pinpoint future research trajectories.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
