Special Issue

Urbanization and Ecological Sustainability

Message from the Guest Editors

The goal of this Special Issue is to seek novel scientific papers related to urbanization and eco-environment sustainability, especially, but not limited to, original empirical studies and scholarly reviews on conceptual and methodological advances and on the interdisciplinary and trans-disciplinary research paradigms. This Special Issue will welcome manuscripts that link the following themes: Topics of interest include, but are not limited to, the following: (1) urbanization and water systems sustainability; (2) urbanization and climate change; (4) urbanization and ecosystem sustainability. We look forward to receiving your original research articles and reviews.

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend Land for your best research publications for a fast dissemination of your research.

Editor-in-Chief
