

Special Issue

Feature Papers for the ‘Land Socio-Economic and Political Issues’ Section: Achieving the Sustainable Development Goals

Message from the Guest Editor

This special Issue (SI) seeks to catalyze interdisciplinary collaboration, uniting diverse academic disciplines ranging from environmental science, agronomy, social sciences, and economics, to urban planning and law to address the multifaceted challenges of achieving the SDGs in the context of sustainable land use. By promoting a multidisciplinary exchange of knowledge and research, the goal is to cultivate a comprehensive and inclusive understanding of land-related issues. Such an integrative approach is vital for formulating holistic strategies, policies, and practices that can navigate the complex interplay between human activities and the natural environment. Through this collaborative academic and policy-oriented endeavor, we can aspire to meet the ambitious targets of the SDGs and ensure a sustainable future for all. We welcome interdisciplinary work that synthesizes multiple perspectives, methods, and data sources to provide novel insights into land issues and their relation to the SDGs.

Guest Editor

Prof. Dr. Hossein Azadi

Department of Economics and Rural Development, Gembloux Agro-Bio Tech, University of Liège, 5030 Gembloux, Belgium

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
