

## Special Issue

# Risk, Vulnerability, and Resilience of Sustainable Agriculture in the Context of Rural Economy Development

### Message from the Guest Editors

Climate change and unexpected events, such as the COVID-19 pandemic or the war in the Ukraine, harm the value chains, cause additional risks and create new vulnerabilities in agriculture and rural areas; therefore, strengthening the resilience of agricultural producers and rural communities is crucial to their well-being. There are numerous research projects aimed at exploring ways to support agriculture and rural communities in increasing their resilience capacity, as well as improving the sustainability of agriculture and other economic and non-economic activities conducted in rural areas. Despite this, there is little dialogue among rural and agricultural stakeholders; further, the knowledge is highly dispersed, and it is not clear which challenges faced by agriculture and rural communities have already been given solutions, and which are still in need of in-depth research.

### Guest Editors

Dr. Barbara Wieliczko

1. European Rural Development Network, Milanówek, Poland
2. Institute of Rural and Agricultural Development of the Polish Academy of Sciences, Nowy Świat Str. 72, 00-330 Warsaw, Poland

Prof. Dr. William H Meyers

Agricultural and Applied Economics, University of Missouri, Columbia, MO, USA

## About the Journal

### Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
