Landscape Governance in the Age of Social Media

Message from the Guest Editors

We invite you to delve into the relationship between contemporary forms of landscape valuation and governance and current social media. Possible lines of research include current connections of social media with:

- Traditional ecological knowledge (TEK) and governance decentralization;
- Participatory scenario and land planning based on [online technologies](#);
- Multi-scale processes and social–ecological resilience;
- Spatio–temporal patterns for the maintenance of the living landscape;
- Sustainable governance and rural landscape stewardship;
- User generated content (UGC) as a tool for landscape studies;
- Inclusive and participatory land governance—a cross-country comparison

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
