New Insights into Podiatry

Message from the Guest Editors

Podiatry is the emerging branch of medicine that specializes in the treatment of foot, ankle, and leg conditions. Podiatry is practiced as a health specialty in different countries and podiatrists are college graduates with competencies in the diagnosis and treatment of foot and ankle disorders. Despite the high prevalence of foot problems, this anatomical region has not received special attention in the past, and only over the last century have medicine and surgery begun to focus on foot and ankle disorders. Currently, knowledge in this field is still rapidly expanding and multidisciplinary approaches to foot problems are still being improved via the development of entirely new treatments and optimization of existing methods. This progress can be seen in both conservative and surgical treatments, as well as in public health aspects such as diagnosis and prevention. We are pleased to announce the launch of the section edition of this Special Issue, entitled "New Insights into Podiatry." We encourage professionals and researchers interested in foot and ankle, and lower leg problems to submit reviews and original research articles that fit into this field.

Guest Editors

Prof. Dr. Antonio Córdoba Fernández

Dr. Kamila Řasová

Dr. Aurora Castro-Mendez

Dr. Lourdes María Fernández-Seguín

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
