New Insights into Allergic Eye Diseases

Message from the Guest Editors

Allergic eye diseases are common ophthalmic disorders that affect millions globally. The usual clinical manifestations of allergic eye diseases include itching, eyelid edema, conjunctival hyperemia, chemosis, conjunctival fibroproliferative lesions, and keratitis. Allergic eye disease is an inflammation of the ocular surface mediated by IgE-dependent and/or IgE-independent immunopathogenic mechanisms. Seasonal and perennial variants of allergic conjunctivitis are IgE-dependent hypersensitivity immune reactions. Vernal keratoconjunctivitis and atopic keratoconjunctivitis involve IgE-dependent and IgE-independent immunopathological mechanisms. The purpose of this Special Issue is to highlight current research on the cellular and molecular aspects of immune and pathological mechanisms of allergic eye diseases. This Special Issue will also highlight breakthroughs in potential therapeutic targets that will go a long way towards developing targeted therapies with enhanced benefits. You are encouraged to submit original research or review articles for consideration to broaden our current understanding of immunopathogenesis, immunopathology, and management of allergic eye diseases.

Guest Editors

Prof. Dr. De Gaulle I. Chigbu

Pennsylvania College of Optometry at Salus University, 8360 Old York Road, Elkins Park, PA 19027, USA

Dr. Livio Vitiello

Eye Unit, "Luigi Curto" Hospital, Azienda Sanitaria Locale Salerno, 84035 Polla, Italy

Deadline for manuscript submissions

30 June 2025

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
