

## Special Issue

# Advances in the Structure and Function of Microbial Communities

### Message from the Guest Editors

This Special Issue, on "Advances in the Structure and Function of Microbial Communities", aims to illuminate the intricate dynamics shaping microbial ecosystems and their pivotal roles in various environments. With a focus on recent advancements, this initiative seeks to bridge gaps in our understanding of microbial community structure and function, offering a platform for interdisciplinary exploration. Through cutting-edge research, this Special Issue endeavors to unravel the complex interactions driving community assembly, diversity, and stability. Moreover, it strives to elucidate the functional contributions of microbial communities to ecosystem processes, such as nutrient cycling, biogeochemical transformations, and host-microbe interactions. Moreover, by showcasing innovative methodologies, theoretical frameworks, and empirical findings, this Special Issue aims to catalyze further insights into microbial community ecology and inform strategies for sustainable resource management and environmental stewardship. Prospective authors are invited to contribute their expertise to this collective endeavor, driving forward the frontier of our knowledge on microbial ecology.

### Guest Editors

Prof. Dr. Qing Hu

Xiong'an Innovation Institute, Chinese Academy of Sciences, Beijing 100085, China

Prof. Dr. Xuliang Zhuang

Research Center for Eco-Environmental Sciences, Chinese Academy of Sciences, Beijing 100085, China

### Deadline for manuscript submissions

31 July 2025

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
