Special Issue

New Insights Into Leishmaniasis and Chagas Disease: Focus on Diagnosis and Genetic Characterization of Parasites: 2nd Edition

Message from the Guest Editors

This second volume of this Special Issue follows on from the success of the first. Thus, we invite you to publish your research in this 2nd

edition: https://www.mdpi.com/journal/life/special_issue s/MY577243J8.Leishmaniasis and Chagas disease, caused by the kinetoplastid protozoa Leishmania spp. and Trypanosoma cruzi, respectively, are among the most relevant neglected tropical diseases (NTDs). Both infections affect millions of people worldwide and are considered a global challenge. Clinical manifestations and disease outcomes are diverse, depending on several patient-related factors, as well as the Leishmania species involved. Therefore, both diagnostic and typing techniques are essential to guide patient management and treatment. We are pleased to invite you to contribute to this Special Issue, which is focused on the diagnosis and genetic diversity of these important parasitic infections, by submitting original articles and reviews. Our aim is to highligh the latest developments in the field and to gather new insights and perspectives in this area.

Guest Editors

Dr. Alba Abras

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
