Recent Advances in Valve Therapy: Clinical and Molecular Perspectives

Message from the Guest Editors

In the past decade, the scientific validation of transcatheter aortic valve implantation (TAVI) has significantly influenced the management of patients with symptomatic aortic stenosis. Alongside TAVI, advancements in other valve intervention techniques are shaping treatment paradigms across a range of structural heart diseases. As new technologies evolve, they bring fresh opportunities and challenges in both clinical and molecular research. This Special Issue aims to address current knowledge gaps and encourage contributions that expand our understanding of the management of structural heart disease, especially regarding advanced valve therapies, including TAVI and emerging alternative procedures. We particularly encourage submissions that cover three major areas of focus: (1) expanded clinical indications, (2) the optimization of outcomes, and (3) molecular mechanisms underlying these therapies. We hope that this Special Issue will provide a platform for advancing knowledge in these dynamic areas, from cutting-edge clinical techniques to the underlying biological processes.

Guest Editors

Dr. Panayotis K. Vlachakis

Prof. Dr. Konstantinos Toutouzas

Prof. Dr. Constantina Aggeli

Deadline for manuscript submissions

30 June 2025

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
