Epidemiology and Control of Hepatitis Viruses

Message from the Guest Editors

Five hepatitis viruses—hepatitis A (HAV), hepatitis B (HBV), hepatitis C (HCV), hepatitis D (HDV), and hepatitis E (HEV)—have a huge impact on human health with their ability to cause acute and often chronic infection. To meet the goals set by the World Health Organization for the elimination of viral hepatitis by 2030, it is essential that access to testing is vastly improved and novel diagnostic approaches are developed to facilitate and streamline linkage to care. This Special Issue, “Epidemiology and Control of Hepatitis Viruses”, calls for papers that address the following topics:

- Global prevalence of the different viral hepatitis;
- Routes of transmission and control opportunities;
- Prevalence by risk groups;
- Changing molecular epidemiology patterns;
- Available screening tools and identified screening needs;
- Gaps and missed opportunities in the surveillance, prevention and control.

Guest Editors

Dr. Elitsa Golkocheva-Markova

NRL Hepatitis Viruses, Virology Department, National Center of Infectious and Parasitic Diseases, 1233 Sofia, Bulgaria

Dr. Lilia Milkova Ganova-Raeva

Assay Development Team Lead, Division of Viral Hepatitis, NCHHSTP, Centers for Disease Control and Prevention, Atlanta, GA 30333, USA

Deadline for manuscript submissions

closed (29 February 2024)

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
