

Special Issue

Advances in Functional Polymers and Composite for 3D Manufacturing, Insulations and Energy Storage

Message from the Guest Editors

A new Special Issue entitled Advances in Functional Polymers and Composites for 3D Manufacturing, Insulation and Energy Storage is dedicated to functional polymers and composites in 3D printing, insulation and energy storage for producing novel materials, structures and devices. A new Special Issue entitled Advances in Functional Polymers and Composites for 3D Manufacturing, Insulation and Energy Storage is dedicated to functional polymers and composites in 3D printing, insulation and energy storage for producing novel materials, structures and devices. The main objective is to link performance and functionality to the fundamental properties, chemistry and physics of the materials, as well as to the characteristics of the process, to provide a multidisciplinary view and a deeper understanding of the topic.

Guest Editors

Dr. Beata Anwajler

Prof. Dr. Anna Witek-Krowiak

Dr. Piotr Szulc

Deadline for manuscript submissions

20 April 2025

About the Journal

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q1 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q2 (Condensed Matter Physics)
