

Special Issue

Selected Material Related Papers from ICI2016

Message from the Guest Editors

The aims and scope of the 2016 International Conference on Inventions is to make researchers focus on patent-based research. This Special Issue will also focus on inventions in materials engineering. Material-related invention is a solution to a specific technological problem and is an improvement on new processes, new materials, and new components, which also could achieve a completely unique function or radical breakthrough. We expect the conference to be a platform for successful patent inventors to share their experiences in inventing with all the participants of the conference. Topics of the conference include:

- Patent-based inventions in materials engineering
- Inventions in device materials and sensors materials
- Inventions in processes for materials
- Inventions in biotechnology and materials

Guest Editors

Prof. Dr. Te-Hua Fang

Prof. Dr. Chien-Hung Liu

Dr. Ming-Tsang Lee

Dr. Tao-Hsing Chen

About the Journal

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q1 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q2 (Condensed Matter Physics)
