

Special Issue

Women in Science: Materials Science and Engineering

Message from the Guest Editors

Researchers are professionals engaged in the conception or creation of new knowledge. Overall, women account for a minority of the world's researchers. The aim of this Special Issue is to present the excellent women researchers in the field of materials science and engineering. Materials Science and Engineering combines engineering, physics, and chemistry principles to solve real-world problems associated with nanotechnology, biotechnology, ceramics, energy, manufacturing, and other major engineering disciplines. This Special Issue is open for submissions (from original research to review articles) across all sections of the journal. Contributing papers with themes that include, but are not limited to, the following areas are welcome:

- Material design, processing, and characterizations
- Soft materials and biomaterials
- Ceramics
- Metallic and non-metallic thin films
- Materials for energy storage
- Nanomaterials and nanotechnology

Please note: To be considered for this Special Issue, one or all of the corresponding authors must be female researchers.

Guest Editors

Dr. Katalin Balazsi

Dr. Rosalía Poyato

Dr. Inga Zinicovscaia

Dr. Anna D. Zervaki

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q1 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q2 (Condensed Matter Physics)
