

## Special Issue

# Feature Paper in Section Carbon Materials

### Message from the Guest Editor

We are pleased to announce this Special Issue entitled “Feature Papers in Carbon Materials”. This is a collection of relevant white papers, topic overviews, tutorials, and seminal work of current interest in the field. Its scope includes but is not limited to carbon black which is either synthetic or of natural origin; carbon fibers and filaments, as well as carbon nanotubes; diamond and diamond-like carbon; fullerenes; glassy carbon; graphite; graphene; graphene–oxide; porous carbons; pyrolytic carbon; and other sp<sup>2</sup> and non-sp<sup>2</sup> hybridized carbon systems. We hope this topic is of interest to you and invite you to send a tentative title and short abstract to our editorial office ([materials@mdpi.com](mailto:materials@mdpi.com)) for evaluation before submission. Please note that selected papers are still subject to thorough peer review. Well-prepared papers accepted for this Special Issue will be granted a discounted publication fee or waiver. We look forward to receiving your excellent work.

## About the Journal

### Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q1 (Metallurgy and Metallurgical Engineering) /  
CiteScore - Q2 (Condensed Matter Physics)
