

Special Issue

Advances in Statistical Analysis for Health, Finance, Industry and Digital Economy

Message from the Guest Editor

Emerging sectors such as health, finance, industry and digital economy increasingly rely on complex data to address challenges and drive innovation. As the volume and variety of data continue to grow exponentially, the need for sophisticated statistical methods and analytical tools becomes imperative. However, advanced analytics applications often lag behind theoretical developments, especially in interdisciplinary research and practical applications. This Special Issue aims to bridge this gap by soliciting contributions demonstrating the integration of cutting-edge statistical methods and novel applications. We welcome submissions from researchers, practitioners and academics at the forefront of data analysis in these fields. This Special Issue will provide a platform for exchanging ideas and disseminating knowledge, leading to meaningful advances in health, finance, industry and digital economy.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University,
The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2024).
