Advances in Skull Base Surgery

Message from the Guest Editors

Skull base surgery is a complex and challenging interdisciplinary field where the modern approach to diagnosis, imaging and therapy includes an interdisciplinary team of neurosurgeons, otorhinolaryngologists, head and neck surgeons, neuroradiologists and radiation therapy specialists. These patients present often with mild symptoms, but following treatment in the past have had severe neurological deficits. Emerging new technologies for improved visualization prior to surgery, during the operation and during the follow up, new and innovative operative approaches, use of augmented and virtual reality, intraoperative ultrasound, fluorescence-guided surgery, novel implants as well as advancing concepts of care which suppose interdisciplinary approach have led to the paradigm change in the treatment of oncological and non-oncological skull base lesions. In this Special Issue of *Medicina*, we aim to publish articles on recent advances in skull base surgery in as broad a context as possible to provide the readers with a comprehensive overview of the latest developments.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
