Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375). *Membranes* is an international, peer-reviewed open access journal of membrane technology published monthly online by MDPI. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Aims

Membranes (ISSN 2077-0375) is an international, peer-reviewed, open access journal. The journal covers broad science- and technology-related aspects of both biological and non-biological membranes. *Membranes* provides a forum for publishing papers that advance our understanding of membrane structure, performance, processes, and applications that cover membrane chemistry, physics, engineering, and biology. The journal publishes original reviews, research articles, and short communications. Authors are encouraged to publish their experimental and theoretical results in as much detail as possible. Thus, there is no restriction on paper length. Full experimental, theoretical, and computational details must be provided so that the results can be reproduced.

Scope

- Inorganic Membranes
- Polymeric Membranes
- Membrane Chemistry
- Membrane Physics and Theory
- Membrane Analysis and Characterization
- Membrane Surface and Interfaces
- Membrane Processing and Engineering
- Membrane Applications
- Biological Membrane Functions
- Biological Membrane Dynamics and Computation
- Biological Membrane Composition and Structures
- Biofilms

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

2023 Impact Factor: 3.3

(*Journal Citation Reports* - Clarivate, 2024)

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures, or use of colors

Journal Rank

JCR - Q2 (Chemistry, Physical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))

Coverage by Leading Indexing Services

Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases

Rapid Publication

A first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2024)
