

Special Issue

Selected Papers from the 16th International Conference on Inorganic Membranes (ICIM)

Message from the Guest Editors

This Special Issue covers a range of contemporary inorganic membrane topics, including (but not limited to): Membrane Types

- Metal oxide/ceramic or Siliceous membranes
- Metal-organic framework (MOF) membranes
- Zeolite membranes
- Metallic membranes
- Ion transport membranes
- 2D (e.g., graphene/GO/layered zeolite) and 1D (e.g., nanotube) membranes
- Hybrid/mixed matrix membranes

Application Areas

- Light gas separations (e.g., CO₂, O₂, H₂)
- Hydrocarbon gas separations
- Hydrocarbon liquid separations
- Organics-from-water (including biorefinery) separations
- Isotope or nuclide separations
- Water treatment (e.g., desalination, decontamination, processed water)
- Biomolecule/biochemical separations
- Membrane reactors
- Membrane contactors or other hybrid processes
- Membrane-based sensors and analytical devices

Technical Areas

- Membrane growth/fabrication and characterization
- Membrane transport measurements
- Membrane transport modeling/simulation
- Membrane scale-up, piloting, or industrial use
- Membrane process design and economics

About the Journal

Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375). *Membranes* is an international, peer-reviewed open access journal of membrane technology published monthly online by MDPI. The journal covers the broad aspects of the science and technology of both biological and non-biological membranes, including membrane dynamics and the preparation and characterization of membranes and their applications in water, environment, energy, and food industries. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Spas D. Kolev
School of Chemistry, The University of Melbourne, Melbourne, VIC
3010, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
