

# Special Issue

## Lipid Biomarkers and Cardiometabolic Diseases

### Message from the Guest Editor

This Special Issue aims to provide a comprehensive understanding of the role of lipid biomarkers in cardiometabolic diseases. By investigating the lipid metabolism and impacts of dietary factors and analyzing advanced lipid profiles, this research will contribute valuable insights into the prevention, diagnosis, and treatment of cardiometabolic diseases. Authors are encouraged to contribute their research findings to further enrich the understanding of lipid biomarkers and their implications in cardiometabolic health.

### Guest Editor

Prof. Dr. Hyun Suk Yang

Department of Cardiovascular Medicine, Konkuk University School of Medicine, Konkuk University Medical Center, Seoul, Republic of Korea

### Deadline for manuscript submissions

closed (30 September 2024)

## About the Journal

### Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

### Editor-in-Chief

Dr. Amedeo Lonardo

1. Formerly Director of the Simple Operating Unit "Metabolic Syndrome", Azienda Ospedaliero-Universitaria, 41126 Modena, Italy
2. Formerly Professor of Internal Medicine, School of Specialization of Allergology and Clinical Immunology, University of Modena and Reggio Emilia, 41121 Modena, Italy

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q2 (Endocrinology, Diabetes and Metabolism)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 13.9 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2024).
