

Special Issue

Selected Papers from ICMEAS 2017

Message from the Guest Editors

This Special Issue is a compilation of the top ten papers selected from the papers presented at the 2017 International Conference on Mechanical Engineering and Automation Science (<http://www.icmeas.org/>), held in Birmingham, 13–15 October, 2017. This Special Issue is aimed at exhibiting the new development in the research of micromachines and/or micro-components of machines. The covered topics include design, modeling and simulation, material, prototyping, experiment testing, as well as automatic control. A number of practical examples are included.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Physics, Applied) / CiteScore - Q2 (Mechanical Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).
