

Special Issue

Editorial Board Members' Collection Series: Biology, Diversity, and Ecology of Methanotrophic Bacteria

Message from the Guest Editors

We are pleased to announce this Collection titled “Editorial Board Members' Collection Series: Biology, Diversity, and Ecology of Methanotrophic Bacteria”, which will collect papers invited by the Editorial Board Members. This issue will be a collection of research papers in all disciplines relating to biology, metabolic and taxonomic diversity, ecology and environmental importance, as well as the biotechnological potential of methanotrophic bacteria. All papers will be fully open access upon publication after peer review.

Guest Editors

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Systems Biology, UFZ-Helmholtz Centre for Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q2 (Microbiology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 13.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2024).
