

# Special Issue

## Microbial Fermentation, Food and Food Sustainability

### Message from the Guest Editors

The aim of this Special Issue is to compile original research articles and systematic reviews that focus on the valorization of alternative food matrices, by-products, and waste obtained through fermentation, as well as biotechnologies related to the production of traditional fermented ingredients and food products. Topics of interest include, but are not limited to, the set-up of new biotechnological processes, the characterization of the microbial community or starters involved in fermentation processes, and the characterization of the obtained products.

---

### Guest Editors

Dr. Marco Montemurro

Institute of Sciences of Food Production ISPA, Italian National Research Council, Rome, Italy

Prof. Dr. Carlo Giuseppe Rizzello

Department of Environmental Biology, Sapienza University of Rome, Rome, Italy

---

### Deadline for manuscript submissions

15 February 2025

## About the Journal

### Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

---

### Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Systems Biology, UFZ-Helmholtz Centre for Environmental Research, 04318 Leipzig, Germany

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q2 (Microbiology)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 13.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2024).
