

Special Issue

Recent Advances of Respiratory Infections

Message from the Guest Editors

In this COVID-19 era, diagnostic methods and/or techniques for respiratory infections have been developed. However, these advanced methods, in turn, attract lots of attention for the principles or clinical pitfalls of handling patients with respiratory infections. In this Special Issue of *Microorganisms*, we invite you to submit contributions concerning any aspects related to respiratory infections including respiratory viruses, bacteria, and fungi. In addition, we also welcome original research, review papers or case reports describing host-pathogen interactions (i.e., translational research), antimicrobial resistance, and virulence factors of pathogens in respiratory tract infections.

Guest Editors

Dr. Takeshi Saraya

Dr. Wendy Unger

Dr. Tomohiro Oishi

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Systems Biology, UFZ-Helmholtz Centre for Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q2 (Microbiology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 13.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2024).
