

# Topical Collection

## Advances in Public Health Microbiology

### Message from the Collection Editor

This Special Issue is the continuation of our previous Special Issue, entitled

[https://www.mdpi.com/journal/microorganisms/special\\_issues/8Y208038D0](https://www.mdpi.com/journal/microorganisms/special_issues/8Y208038D0). This Special Issue aims to collect high-quality review papers in all fields related to Public Health Microbiology. We encourage researchers to contribute papers (comprehensive reviews and research articles) that highlight the latest developments in the field of Public Health Microbiology, or to invite relevant experts and colleagues to do so.

## About the Journal

### Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

---

### Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Systems Biology, UFZ-Helmholtz Centre for Environmental Research, 04318 Leipzig, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q2 (Microbiology)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 13.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2024).
