

Special Issue

Nanomineralogy

Message from the Guest Editors

The 2018 International Conference on Nanogeosciences was held in Guiyang, China between June 22nd and 27th, 2018. Researchers from around the world gathered together and actively discussed emerging challenges and opportunities in numerous fields of nanogeosciences. This Special Issue of *Minerals* aims to showcase recent advances in the wide range of themes in nanogeosciences, with a substantial focus on the nanoscale research in mineralogy. We invite attendees of the nanogeosciences conference to submit selected high quality manuscripts to this Special Issue. Suitable contributions from other interested professionals are also welcome. The keywords are:

- Nanogeoscience
- Nanomineralogy
- Nanominerals
- Mineral nanoparticles
- Nanopores
- Nanogeochemistry
- Mineral–water interface

About the Journal

Message from the Editor-in-Chief

Minerals welcomes submissions that report basic and applied research in mineralogy. Research areas of traditional interest are mineral deposits, mining, mineral processing and environmental mineralogy. The journal footprint also includes novel uses of elemental and isotopic analyses of minerals for petrology, geochronology and thermochronology, thermobarometry, ore genesis and sedimentary provenance. Contributions are encouraged in emerging research areas such as applications of quantitative mineralogy to the oil and gas, manufacturing, forensic science, climate change, geohazard and health sectors.

Editor-in-Chief

Prof. Dr. Leonid Dubrovinsky

Bayerisches Geoinstitut, University Bayreuth, D-95440 Bayreuth,
Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), GeoRef, CaPlus / SciFinder, Inspec, Astrophysics Data System, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Mineralogy) / CiteScore - Q2 (Geology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2024).
