

Special Issue

Featured Reviews in Applied Chemistry 2.0

Message from the Guest Editor

The development of science and technology has led to huge benefits in academia, and chemistry is a field that greatly contributes to this development. Applied chemistry covers a variety of chemical fields, including the study of various materials such as metal compounds, inorganic and organic compounds, polymers, proteins, etc., and their applications. This Special Issue will collate review papers from the field of applied chemistry. We kindly invite and encourage all research groups covering various applied chemistry areas to submit contributions to this Special Issue.

Guest Editor

Prof. Dr. Teobald Kupka

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the second half of 2024).
