

Topical Collection

Essential Oils

Message from the Collection Editors

Aromatic plants and the essential oils derived from them play an important role in many aspects of our life, including cuisine, food technology, aromatherapy, and the F&F industry to name but a few. This Topical Collection of the journal *Molecules* will bring together research from this field. Papers addressing, but not limited to, the following topics are welcome:

- The analytical aspects of essential oils;
- Biogenesis and biotechnology;
- Chemotaxonomy;
- The nonflavour-related activities of essential oils and their constituents.

Manuscripts will be reviewed by specialists in the field of essential oil research.

Collection Editors

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the second half of 2024).
