Bioactive Phytochemicals: Extraction and Health Benefits

Message from the Guest Editor

Bioactive phytochemicals are naturally occurring compounds found in plants that have the potential to promote health and prevent disease. These compounds are known for their diverse biological activities, such as antioxidant, anti-inflammatory, and anticancer properties. Some examples of bioactive phytochemicals include flavonoids, carotenoids, and phenolic acids. These compounds are typically found in fruits, vegetables, and whole grains, and their consumption has been associated with a reduced risk of chronic diseases such as heart disease, cancer, and diabetes. Bioactive phytochemicals are a promising area of research for the development of natural products and supplements to support human health.

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
