

## Special Issue

# Chemical Modification of Textiles and Fibrous Polymers

### Message from the Guest Editors

The importance of textiles and fibrous polymers with enhanced positive attributes or designed new properties in daily and professional life is unimaginable. Their properties can be changed through chemical modifications, either conventional wet finishing or unconventional, such as plasma, nanotechnology, microencapsulation, sol-gel, etc. The aim of this Special Issue is to collect and disseminate the latest studies, different methods, and recent developments in chemical modifications of textiles and fibrous polymers. Researchers working in the field are invited to contribute original research papers or reviews to this Special Issue of *Molecules*.

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
