

Special Issue

Discovery of Active Ingredients from Natural Products

Message from the Guest Editor

Natural products are chemical compounds or substances originating from living organisms and can also be prepared via chemical synthesis. Natural products have been broadly utilized in the development of dietary supplements, medicines and pharmaceuticals, cosmetics, and foods. However, identifying and determining active ingredients from natural products are prerequisites. This Special Issue welcomes research and review articles searching for active constituents from natural products, including methods of isolation and identification, and the development of protocols to regulate biological activities. Active ingredients involved in agricultural, food, medicinal, and pharmaceutical chemistry are cordially invited.

Guest Editor

Prof. Dr. Tran Dang Xuan

Transdisciplinary Science and Engineering Program, Graduate School of Advanced Science and Engineering, Hiroshima University, Hiroshima 739-8529, Japan

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the second half of 2024).
